

Three ideas to submit:

- Poth Nirdeshika: An improved system to assist customer more efficiently using google maps API. The routes issue of the region can be solved by using this system.
- Lost & Found: Online based lost and found system where NSU students can easily check if there lost are there in the lost and found or not
- TravelMate in Semester Break: The system can help people to find travelmate in any tour from any organization, age etc. People can also arrange customized tour or events from this system. They can arrange using predesigned plan also. The review about the travelmates will also be available in this website.
